

UNWIRE! Eliminate Boundaries

A secure wireless broadband network can eliminate boundaries and improve the flexibility, productivity, and mobility of any business. IK Electric, a Cisco and 3COM certified expert in radio frequency technology, can assess, design, build and maintain your custom wireless network solution.

Some UNWIRED networks IK has transformed include:

- The University of Arkansas at Pine Bluff
- Ouachita Baptist University
- Timex Corporation
- Stihl Corporation
- Southern Arkansas University Tech
- Southern Arkansas University
- FamilyLife
- Learning RX

IK Electric is your hometown 85-year-old networking solutions partner providing broadband and electrical infrastructure to schools, homeowners, corporations, utility companies and local governments throughout Arkansas.
